PETA TOKENS

PETA TOKEN IS THE MAIN CURRENCY WITHIN THE PLATFORM TO TAKE PART IN THE ENTIRE PETAVERSE ECOSYSTEM AND GAMING. IT WILL BE USED

- TO BUY DIGITAL ASSETS OF THE METAVERSE AND ALSO LAY OWNERSHIP OF SPECIFIC TITLES AND GAMEPLAY ENTITLEMENTS**
- FOR TRADING, EXCHANGING, ENHANCING THE PETS, AND ADDING SPECIAL QUALITIES.**

TOKEN USE CASE

\$PETA is the main in-game currency. PETA revolves around a core loop of engaging gaming activities such as collecting, breeding, evolving, battling plus improving the Pets and their special qualities

Use \$PETA to feed your pet and monsters and help them grow stronger through exercises and trainers.

IN - GAME

Use \$PETA to forge and own weapons in the Pet Gym and build a strong army.

The More \$PETA, the faster you move through gaming levels. We use the concept of Levels to break down the game progress into smaller parts. This mechanism complements our human tendency for short-term rewards.

Use \$PETA and create a new generation of pets by breeding any two pets.

Petaverse is a pet Metaverse that combines DeFi, collectibles, and gamers' personalities.

Use \$PETA to buy digital assets of the metaverse and also lay ownership of specific titles and gameplay entitlements

Real world pet products, insurance, vet services, and counseling services to different pet owners who need help.

Own a land in Petaverse, rent or build your own villa

Create an avatar of your pet and convert it into NFT using \$PETA you can also use the available pet & monster images to customize and create NFTs and characters

A percentage of the NFT sale proceeds will be used for supporting pet care centers, E.g. feeding all pets in the rescue center for 1 day.

Rescue centers or rescuers can create a crowdsource project, E.g. to save and maintain a rescued pet until it gets a pet parent.

SOCIAL CAUSE

Relive memories of your pet through VR. Take part in pet fairs, competitions, and other events to win \$PETA

10% of the NFT sales will be going to the Pet Care Foundation. and research foundations. Research and grants for pet sustainability and living using blockchain and crypto metaverse

Curated Pre-sale of
premium pet NFTs for the
community through this
marketplace

Once a graphic is
uploaded and NFT
made by a Pet Owner,
\$PETA token holders
will have the
discounted price to
buy those pets' NFTs.

Each pet is an NFT
(Non-fungible Token)
that can be collected,
nourished, and armed
with weapons to
battle with other
pets.

NFT MARKETPLACE

To Mint an NFT, one can use
stable coins or BNB but if
they use the native token
\$PETA they get a lesser cost
of minting.

TOKENOMICS

REWARDS FOR HODLERS

1% of each transaction is redistributed to token hodlers. That means you can earn more \$PETAb by just holding them in your wallet. No need to farm or stake.

2% TAX ON ALL TRANSACTIONS

For all Buy, Sell, Transfer 2% tax is imposed. 1% of every transaction is transformed automatically into liquidity (bringing in price stability).

AUTO & WEEKLY BURNS

The extra 2% taxed on all sell transactions, will be used to buy back and burn tokens weekly for an ever decreasing circulating supply and increasing price floor.

LIQUIDITY LOCKED

Initial liquidity provided would be locked in uniswap for 6 months and the contract will undergo audits. The results of audit would be published to the community.

ANTI-DUMP LOCK & 4% SELL FEE

Sells are restricted to less than 0.058% of the total supply + extra 2% fee is applied to all sells. Which means each time you sell, your transaction tax is doubled. This will allow us to reduce swing-trading and break whales' control.

CHARITY WALLET

We have a designated charity wallet that receives redistributions that are used to support our social partners like Pet Rescue Centers..
